By Peabody & Arnold on March 31, 2024

Peabody & Arnold continues to exceed the national average of female partners at 47% against the national average of 27%. We are also proud that 56% of our attorneys are women. During Women's History Month we honor their leadership, expertise, and dedication in helping to shape P&A's 125 Years. Here's to continuing to empower women and foster diversity within the law.
