So, just what are the “dog days of summer”? The term is derived from ancient Greece and Rome, and the rising of Sirius, the Dog Star. Sirius is thought to be the brightest star in the sky aside from the sun. As we celebrate #PeabodyArnold's #125Years and the waning days of summer, meet some of our four-legged companions, the “dog stars” of our firm!

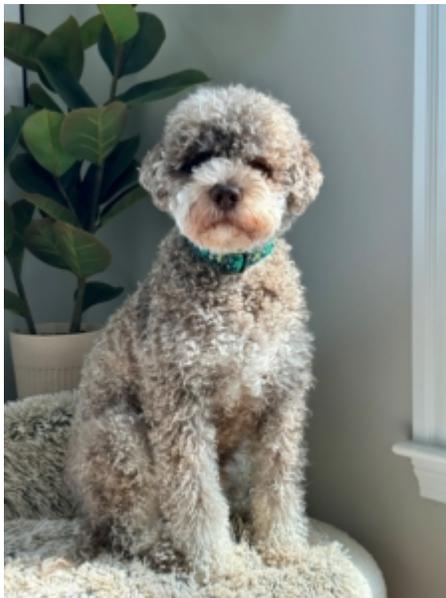

Henry, dog of Partner **Lindsey A. Gil**
