By Peabody & Arnold on July 9, 2019

Peabody & Arnold Partner Colleen Hennessey recently coauthored an article discussing the essential role that a science and expert team plays in the defense of drug and medical device litigation. Entitled “The Art of the Science Team,” the article was recently published by Law360. The article can be accessed [here](https://www.law360.com/articles/1175603) or for subscribers to Law360 by clicking here: <https://www.law360.com/articles/1175603>. Colleen defends drug and medical device manufacturers in both local and national product liability litigation with a focus on leading science and expert teams.
