By Peabody & Arnold on March 8, 2023

Peabody & Arnold celebrates [#InternationalWomensDay](#) and the stellar contributions of our many women partners, associates and staff members. Our firm was founded in 1899 by two men, Francis Peabody Jr. and Edmund Arnold, and nearly 125 years later, our firm is proudly comprised of 43% women partners and 55% women attorneys across numerous practice groups. As a firm, we are committed to the advancement of women in the legal profession, and particularly proud that our representation of women partners and women attorneys far exceeds legal industry averages.
